

Welcome to Dar Al-Shifa Performance Indicators

At Dar Al-Shifa Hospital, we are committed to creating an environment that is safe and move towards an integrated health system that puts patients first.

Our main goal is to provide the best possible care and clinical outcomes, through specifically designed indicators that provide guidance for delivering safe and quality care and we are proud to share our results that lead us towards that goal.

We believe it is important for our patients to see how are we meeting their needs to deliver excellent care and by publicly reporting data from our performance-based indicators, we strive for transparency, accountability and long-standing improvement opportunities.
